PROJECTS

Smart Dustbin

4 days

Dustbin have been important part of our life.but,the issue we have to deal is it's open cap.Due to this open cap,insect and flies visit the garbage and also the same flies roam around out kitchen.This leads to serious health issues .In order to solve this issue,we had design here a smart Dustbin using arduino uno.This smart Dustbin automatic open its cap when we pass our hand above it.

Hospital Management System

15 days

This main objective of the Hospital Management System is to computerize the maintenance of the patient details and billing section in the hospital .This system has been developed to form whole management system including Employee,Doctors,Nurses,Patients,Billsand Complains etc.
